

ILMI WORKING PAPER 8

An Assessment of Housing Needs in Namibia

Presentation by Kristy Asino and Ase Christensen,

July 19th, 2018; 14h30-16h30

Venue: NUST Auditorium 3 (cnr Weber and Brahms St)

The event is a presentation of ILMI Working Paper 8, which discusses the possibility of a methodology for assessing the housing need in Namibia, that government offices, ministries and agencies, as well as academic, private sector, civil society and other stakeholders at large can rely on.

- 15h30 Responses by the Namibia Statistics Agency
Pauline Enkono, Executive: Demographic & Social Statistics
- 15h45 Discussion with invited guests.
- 16h30 Closure

Kristofina Asino is a lecturer at the Department of Architecture and Spatial Sciences at NUST. She has national and international professional experience in the field of urban and regional planning. She previously worked as a Town Planner for both the Queensland's Department of Transport and Main Roads in Australia and Municipality of Walvis Bay in Namibia. She holds a BSc in Community and Regional Planning from Iowa State University, a Master in Urban and Regional Planning from the University of the Free State, and is currently a PhD candidate at the University of Pretoria. She is also an active member of the Namibia Institute of Town and Regional Planners. Her areas of expertise within the field of urban and regional planning are broad and include housing. She can be reached at kasino@nust.na

Åse Christensen is a lecturer at the Department of Land and Property Sciences. She holds an MSc in Surveying, Planning and Land Management from Aalborg University in Denmark. She has worked in the field of tenure security, slum upgrading, socio-economic analyses, and has worked in the development of the Flexible Land Tenure System (FLTS) in Namibia. She has coordinated projects in collaboration with various international organisations, such as the World Bank (WB), Millennium Challenge Corporation (MCC), Swedish International Development Cooperation Agency (Sida), Norwegian Government (StatensKartverk - Norad). She has ample experience working internationally in development projects as well as a consultant for local and international organisations. She can be reached at achristensen@nust.na

About ILMI The Integrated Land Management Institute is a centre of the Faculty of Natural Resources and Spatial Sciences (FNRSS) at the Namibia University of Science and Technology (NUST) committed to develop reputable and multidisciplinary research and public outreach activities in the field of land, administration, property, architecture and spatial planning. <http://ilmi.nust.na/>
